

The no-cost funds we receive from DialAmerica would be extremely difficult to replace, plus even when DialAmerica does not make a sale to generate funds in support of our organization (Special Olympics Florida), they are educating the public on the good work that our organization does on behalf of people with mental retardation. With the current proposed telemarketing legislation changes, the Sponsor Sales Program of DialAmerica could be very much in jeopardy. Right now, the proposed changes do not provide a clear-cut exemption for this type of program. Thus, unless they get an exemption, or these proposed changes are amended, DialAmerica could be forced to cease and desist from calling this unique and benevolent program. We cannot let this happen!
